Hobbies

Eating

Eating delicious food always makes me happy

Learning Japanese

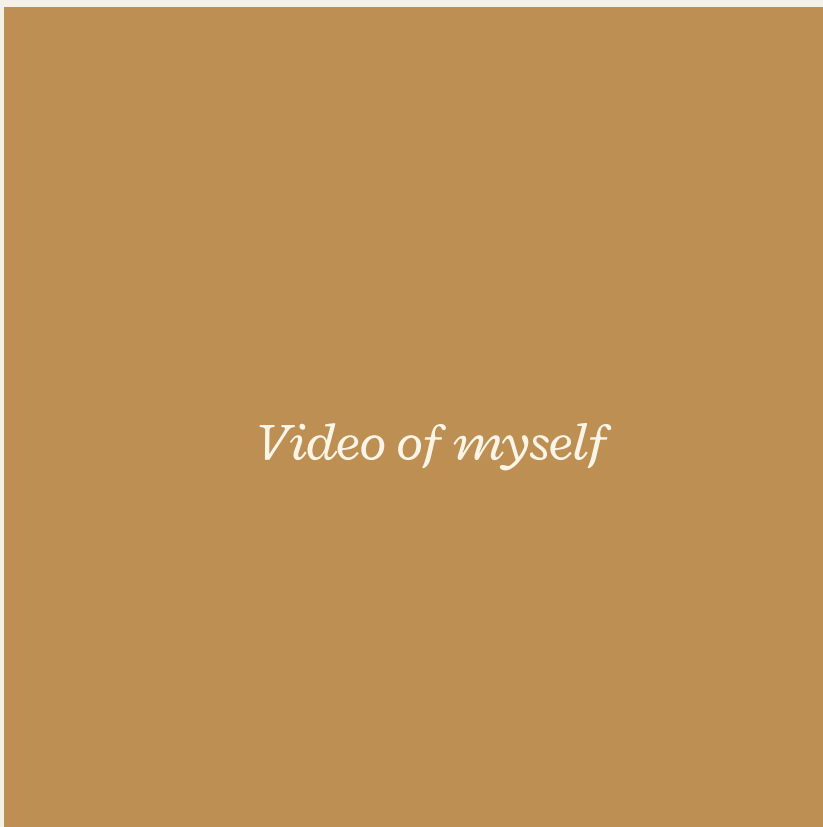

Learning Japanese always surprises me

Listening Music

Listening music always energizes me

About *ME*

Video of myself

video about myself

My name is Alisha, and you can call me Bell, which is my nickname. Since I am a nightowl, I always enjoy sleeping in my free time. I graduated from Samsenwittayalai School in the Science-Math major in the English program. In 2022, I went to exchange abroad during my high school years in Japan, which broadened my perspective on the world and enabled me to face new things in a different society. This is also the reason why my hobby is learning Japanese and traveling in Japan. I also received an opportunity to study in the POSN camp during my 11th grade with Thammasat University, which influenced me to pursue a degree in this field. In the future, I would like to pursue another degree or work in another country since I also have an interest in cultural exchange and computer programming.
